Welcome!

Welcome to my 2024 version of - Warriors: Ship or Sink! It got pretty popular last year, so I'm doing one for this year. So, for anyone new, the way it works is for everyday of February I post a chapter with one ship. I say how I feel about it, and then I say whether I ship or sink it. You also comment how you feel about the ship! This will start on February 1st, and since it's Leap Year, end on the 29th.

Some things I would like you to do before you participate are:

1. Add this to your Public and Private reading list

2. Vote on this Chapter

3. Lastly, comment your favorite and least favorite warriors ship!

Brightheart x Cloudtail

Ah, starting off the month with a wholesome ship! Welcome, February, may the ship or sink begin!

I really like this ship! Its so sweet. I love how when Brightheart gets injured and is recovering, Cloudtail is by her side 24/7. Its also really sweet how afterwards he says something along the lines of, "You will always be beautiful to me." So wholesome.

I SHIP! What do y'all think? Tag your best friend below! :D

Jayfeather x Half Moon

Welcome to the 2nd day of Ship or Sink! Enjoy!

I love this ship! Its really wholesome, but its also pretty sad! I loved reading about Jayfeather when he was with the Ancients. My favorite Jay x Half quote is something along the lines of, "I will wait for you forever, Jay's Wing." So sweet, yet so sad.

I SHIP! What do y'all think?

Firestar x Graystripe

Welcome to day 3 of ship or sink! Have fun :D

So I'm currently reading The Prophecies Begin and I saw this one and was like "bruh 💀" Like.. Why?? They're best friends, not mates! I mean they are super close, but I have never looked at them as partners.

I SINK! What do you think? 😵‍💫

Tigerstar x Goldenflower

Welcome to day 4! Enjoy!

I really don't feel like Tigerstar deserves her. She deserves a cat who is there for her kits. I mean, because of Tigerstar, Bramblekit is feared.. Its so sad! If only he had a better father who would have been there with him throughout life..

I SINK! What do y'all think?!

Lionpaw x Heatherpaw

Welcome to day 5 of ship or sink! Enjoy :)

So, I'm pretty sure these two were hanging around each other in Power of Three in the ThunderClan tunnels (correct me if I'm wrong-).

I really did enjoy reading about them, I always would look forward to a chapter of them hanging out. I can't remmeber exactly what happened, but after they stopped meeting each other, Lion(blaze at that time, right..?) fantasized of killing her.

So I mean, when they were apprentices and early warriors, sure. But after that.. No. Im more of a Lionblaze x Cinderheart anyway.. Sorry for the long chapter!

I SINK! What do y'all think?

Fireheart x Sandpaw

Welcome to day 6 friends! :D

So I'm currently reading the first arc, so I wanted too do this one! I like this ship. Yeah, their relationship started off bumpy, but in the 2nd book she gets friendlier with him. Its so weird how many patrols they go on together lol.

I SHIP! What do y'all think?

Jayfeather x Briarlight

Welcome to day 7 everyone! I hope y'all have enjoyed the first full week of Ship or Sink! :)

I really love this ship; Its so sweet!! Yes, Jayfeather may not have feelings, a thing we are not really sure about. But, I just know Briarlight does! Wait did the Erin's say anything about them.. *me getting off topic as usual* Anywayy..

I SHIP! What do you think? :)

Fireheart x Bluestar

Welcome to day 8!

So for this one. NOOOOOOOOOOO. Like, they have a mother-son relationship not a mate relationship 😩 Its so annoying when I see this, like.. Why?? I hope hall sink this lmao

I SINK! What do y'all think? Please comment a ship I haven't done so its easier for me lol.

Barley x Ravenpaw

Welcome to day 9!! :D

I like these 2. I'm not a LGBTQ+ supporter, but this ship is an exception. Sometimes, people are just attracted to the same gender. I don't support it, but you do you, God still loves you. Anyways, I like their little interactions, its adorable. I also haven't read Ravenpaw's manga, so I don't have a ton about them, butttt,,,

I SHIP! What do you think? Tag a friend who reads Warriors :)

Squirrelflight x Bramblestar

Welcome to day 10!

So, this ship always gets a lot of hate due to Bramblestar being "abusive". I have read "Bramblestar's Storm" and never really saw him being abusive, more manipulative like. But, I have been recommended to watch moonkitti's video, "Bramblestar is Worse". I'll look into that. But really, I think all that really matters is that in the end, they loved each other. Yes, they had their ups and downs, but as I said, in the end, they loved one another.

I SHIP with some small holes in the sail! What about yall?

Graystripe x Silverstream

Welcome to day 10! I hope y'all are enjoying this!

Ok, I'm doing this one because I just read the part where *SPOILER ALERT*

Silverstream dies. Its so sad! I actually really like Silverstream!! I hate Millie.. But I mean, y'all know me, I love reading about some forbidden relationships. Like, of the few interactions we get to see of them, they are so wholesome. Like when Fireheart follows Graystripe to see where he is going and walks in on them seeing eachother, we see how they act together and its adorable!

I SHIP! What do y'all think?

Bluestar x Oakheart

Welcome to day 12! Thanks to the ones who have stuck around!

So, I'm currently rereading the first series, and I'm past where Fireheart finds out about Bluestar's kits, and then she confesses that they are Oakheart's. I like this one because of Mosskit. I know she dies.. But still!

I SHIP! What do y'all think? Tomorrow's ship is gonna be adorable!

Hollyleaf x Fallen Leaves

Welcome to day 13!!

We never get much interaction between them in the books, but they are just idk cute? Wait is there a book with Hollyleaf's experience in the tunnels? But anyways, I imagine them as a super cute couple!

I SHIP! What do y'all think?

Firestar x Cinderpelt

Happy Valentines Day!! :D

Okay, maybe if Sandstorm didn't exist and Cinderpaw hadn't got hit by a monster, this could be agreeable. Like, I see where the people supporting this ship are coming from, but like, for this to work out, ad I said before, Sandstorm would have to not exist and Cinderpaw not get hit by a monster. I mean, its cute, and like, I've thought about supporting this ship before, but I mean, I need Firestar x Sandstorm so there is Leafpool and Squirrelflight, so there is Leafpool x Crowfeather so there is Jaybae, Hollyleafff, and Lionblaze :3

I SINK! What do y'all think? Happy Valentines Day!!

Leafpool x Crowfeather

Welcome to day 15! Tag a few friends right here!

I would say that I like this ship. Yea, Leafpool is a medicine cat and Crowfeather is a cat from another clan, but it so cute. And, without this ship, Jaybae, Hollyleaf, and Lionblaze wouldn't be a thing. Like without this ship, Power of Three wouldn't be here.

I SHIP! What do y'all think?

Mousefur x Longtail

Welcome to day 16!

I really like this ship. They never really interact much until they are in the Elders Den together, but when they are in the elders den they are like besties. Longtail even died for grumpy ol' Mousefur- well, going to fetch her mouse.. Oop- But yes, I like this one!

I SHIP! What do y'all think?

Lionblaze x Cinderheart

Welcome to day 17!

This ship is cute. It does kind of get on my nerves when Cinder is like, "oh, you have all these special powers and I'm not good enough for you" Like gurl 💀✋ You're a reincarnated cat, don't even start 😒. But, I do love this ship- its super cute and wholesome!

I SHIP! What do y'all think?

|~ Also- the reason I haven't done some of y'all fav ships is cause I haven't read about those characters yet so I don't know what to say lol. ~|

Fireheart x Spottedleaf

welcome to day 18! :D

Ok so.. They knew each other for what, like one, two moons? He 'fell in love with her at first sight', but after she died, Sandpaw showed OBVIOUS feelings, yet he kept fan girling around her. And when he made the quote, "Suddenly it didn't matter that her fur was orange instead of tortoiseshell," blah blah blah. Like dude.. I sort of ranted here, but..

I SINK! What do y'all think? :3

Graystripe x Millie

welcome to day 19! :3

No.. Just no. She was like a second option. People say I would ship them more if I read the mangas, but.. I'm a Silverstripe supporter. Nooooo, go away Millie >:[

I SINK! What do you think?

Jayfeather x Stick

Welcome to day 20!!

I personally think this ship is so stupid lmao. Like, yeah he *sort of* had an obsession with his stick, buttttt, that doesn't mean you ship it 😂 That would be like shipping all you peoples with Wattpad.. So I mean.. 💀✋

I SINK! What do y'all think about this hilarious ship? 😂

Mousefur x Runningwind

Welcome to day 21!! :DD

They never really had any interactions we read about, BUTTT, Mousefur was one of the, 3 (?) cats that sat vigil by his body when he died. I don't know if this is a ship people have ever talked about, I just 'created' it now. But I mean, if he hadn't died and Longtail didn't exist, then suree!

I SINK! What do y'all think?

Graystripe x Mistyfoot

Welcome to day 22-

So.. Um.. What? In chapter idk of some book of the first series it mentions them together and they do something 'affectionately' towards each other. I see where some people may ship this, but.. No..

I SINK! What do y'all think?

Jayfeather x Rock

Welcome to day 23 :33

Um.. THE AGE GAP 😭😭 Please 😱✋ Stop this ship 😱🫦

I SINK! What do y'all think?

Petition to stop this ship > >

Tigerclaw x Spottedleaf

Welcome to day 24!

Ok, so, as the person who recommended this ship said, Spottleaf always stood up to him and wouldn't let him put her down. He also called her "Dear Spottedleaf" at one time. Yeah, maybe if she didn't die, she didn't like Firepaw, and Tigerclaw was a good guy, this could happen. But if those 3 things I said above are still valid, then no.

I SHINK (ship/sink)! What do y'all think?

Squirrelflight x Ashfur

Welcome to day 25!! :)

Ok, y'all want to call Brambley abusive? This dude literally tried killing "her kits". She obviously didn't like Ashey, but he chasing homegirl. Like dude, she had a mate, " kits", and a fine life without chu- So go away..

I SINK! What do y'all think?

Fernpaw x Dustpelt

Day 26, Lilies!! :D

!SPOILER ALERT!

I really like this ship! Just ignore the uncle thing, and the age gap and this is adorable! I love how during the battle against Scourge, he makes sure she will be safe. It so sad after she died, and he put her moss into his nest so he could always smell him 😢 It was so sad, yet so wholesome..

I SHIP! What do y'all think?

Brightpaw x Swiftpaw

Welcome to day 27!! :DD

I really don't see where this is a ship. Yeah, Swift may have liked Bright, but we never really heard of them sharing tongues or talking much, it was always Bright and Cloudy doing stuff together. Honestly, I think it was a one- sided kind of thing. I'm a proud Brightheart x Cloudtail shipper, so..

I SINK! What do y'all think?

Scourge x Bone

Welcome to day 28! Its my birthday!

I see where this ship comes from. I mean, a tiny little bad *** dude with his big ol' helping 'love'. I mean, sure. I don't mind some lgbtq + ships. I can see where this one can be a ship. I mean, Scourge deserves a one for him, right?

I SHIP! What do y'all think?

Lilystream x Foxtail

Welcome to the last day; day 29~ I'm doing one of my ships for today!

I find it adorable how these two never talked and then "the accident" (I'm not saying what it is, as it is a spoiler to my non published book) happened, and they became so close, due to Foxpaw sharing his feelings for her. Hopefully they will have kits; who knows..

I SHIP! What do y'all think?

And this is where we draw to an end, Lilies~ Thank you for all the wonderful support y'all gave this! Tag some Warriors fans right here so they can check out the previous chapters ---------->
